NOMADIC ASSISTANCE FOR PEACE AND DEVELOPMENT

ANNUAL REPORT 2019

WORKING TOWARDS A JUST SOCIETY

Nomadic Assistance for Peace and Development (NAPAD) is a Non-Governmental Organization that runs on a non-profit basis, guided by community centred rights-based principles towards the achievement of the goals enshrined in its mission, vision and core values. NAPAD has grown from a community-based organization in 2004 to a vibrant NGO with operational presence in Gedo and Mogadishu regions of Somalia. NAPAD was founded by former humanitarian and development workers with exposure to hands-on experiences with international organizations in diverse sectors. NAPAD is registered in both Kenya and Somalia and has field operational offices in various target locations and support offices in Nairobi, Kenya and Columbus Ohio, USA.

Our Strategy

Vision

NAPAD envisions a just, peaceful and prosperous society for all

Mission

Our mission is to promote sustainable peace and human development amongst vulnerable communities through the advancement of social, economic, ecological and political justice in the Horn of Africa.

Strategic Goal

We aim at contributing to the realization of lasting peace and human development in target areas through recovery, rehabilitation and reconstruction.

Programmatic Approach

Our efforts are focused on ensuring that vulnerable and poverty-stricken communities in the Horn of Africa particularly the pastoral and agro-pastoral communities have equal access to peace, quality life and sustainable development. We achieve this by supporting communities to actively participate and influence socio-economic and political development processes that address the needs of the disadvantaged. (Right Based Approach, Do No Harm, Result Based Approach)

Strategic Program Priorities and Target Geographical areas

We focus on interventions and sectors that generate high impact results for our targeted communities. Our focus areas address the felt needs of communities in Livelihoods and Food Security, Education, Water Sanitation and Hygiene (WASH), Community Cohesion and Reconciliation, Environmental Management and Advocacy. We continuously review our institutional needs and internally strengthen our competencies to effectively deliver our organizational inputs into programming. Over the years we have worked in Mandera(Kenya) and Gedo(Somalia). Our programmatic and operational presence has been driven by community needs and the desire to continuously improve our effectiveness.

The Context and Our Target Population

Our energies are directed to working with the vulnerable and poverty-stricken communities in the Horn of Africa. We target both the rural and urban poor with special attention to pastoralists, agro-pastoralists and the river-rine farmers who are in dire need of support to guarantee their survival and those of their families. We work in South Central, Somalia characterized by complex security challenges, historical marginalization and recurrent climatic shocks emanating from the effects of climate change. The proximate consequences to the wellbeing of communities are manifested in perennial needs that have been addressed with mixed results. Our challenges are complex, but we have remained steadfast in the pursuit of our vision of just, peaceful and prosperous societies in our target areas of Kenya and Somalia.

NAPAD PROJECTS

PROJECT	LOCATION
Kismaayo Women Economic Empowerment Project (KWEEN I)	Kismaayo, Jubbaland State
Building Resilience at Community Level in South-West Somalia and North-East Kenya	Gedo Region (Dolow & Garbaharey) and Mandera County

OUR ACHIEVEMENTS

Goal 2: Zero Hunger

- Over 90 hectares of new farmland put under solar-powered irrigation with different crops; maize, sorghum, sudan grass, cowpeas tomatoes and onions.
- Approximately 233,250 livestock accessed adequate water in Gedo and Galgadud Regions in Somalia through the installation of Solar Pumps and rehabilitation of shallow wells
- 1750 farmers were supported to improve food production through the establishment of solar-powered irrigation systems, training and provision of farm inputs

Goal 4: Quality Education

- 5473 (2427 girls & 3046 boys) school going children in 20 schools accessed quality basic education through school programs in Gedo region.
- 2,048 children from 8 schools received learning materials
- 4520 students benefitted from school feeding programme
- 71 teachers received financial incentives

Goal 6 & 13: WASH and Affordable Clean Energy

- 22,600 persons accessed with affordable safe drinking water in Gedo and Galgadud Regions in Somalia and Mandera Kenya through the installation of Solar Pumps and rehabilitation of shallow wells.

Goal 16: Peace Justice and Strong Institutions

- Over 260,000 citizens have information on where and how to access legal Aid services
- Local clan and religious Leaders have the skills to dispense justice through Alternative Justice System
- Neboi Legal aid centre is now functional

SUCCESS STORIES

WATER SANITATION AND HYGIENE

Meeting the Hygiene and Sanitation Needs for Children in School

Thorn trees stretch in a stubborn thicket for hundreds of miles in every direction of Abduwak District, Somalia. The region is characterized by hot and dry weather most of the year except for some unreliable torrential rains which fall in April and October. Amidst the hot blowing wind and the fog of red sand, Yamyam Primary School is a beacon of optimism in the desolate arid area. Yamyam primary school is a community school located in an IDP camp in Abudwak district, with a population of 130 students and 4 teachers. The school, however, faces a myriad of challenges. "Access to safe and clean water has been one of the biggest challenges for this school. Intermittent supply of piped water from the village borehole led to poor hygiene practices among the school population which exposed the students to water-borne diseases.

SUCCESS STORIES

LIVELIHOODS AND RESILIENCE

Securing Women and Youth Empowerment

Amino Abdullahi Abdi, 46, is an Internally Displaced Person from Bu'ale, Middle Juba now living in the Port town of Kismayo in Southern Somalia. As a newly wedded young girl, Amino owned a small shop in Bu'ale that used to sell household essentials like tealeaves, salt, washing powder, and spices. The money she made from her little shop supplemented her husband's income which allowed them to live a comfortable life. The conflict brought about by local militia prompted Amino and her family to leave home in search of safety. "When we left, I only carried our clothes with us" Amino sadly recalls. "I left all my life back home in Bu'ale"

SUCCESS STORIES

HUMANITARIAN AID

Providing Life Saving Food

For 51 year old Hawa Kusow, when it rains, it pours. Floods caused by heavy rains swept all her household belongings, destroyed her structures such as the kitchen and submerged her toilet. With nowhere to turn to and no food to feed her household of 10, the resident of Sala village in Northern Mandera, became one of the hundreds of thousands of people left displaced in the aftermath of floods following the heavy October and November 2019 downpour in Kenya and Somalia which resulted to crop and livestock destruction and human displacements.

SUCCESS STORIES

ADVOCACY AND GOOD GOVERNANCE

Strengthening Alternative Justice System

Elders from the Murulle, Garre, Degodia, Marehan and Corner tribe clans convene in a hall keenly listening, deliberating, discussing and asking questions knowing too well that the fate of people in their communities lies in their hands. In Mandera County, located North Eastern of Kenya, these five clans comprise the majority of the larger Somali tribe with its populace distributed in the larger Mandera County. Although the culture and norms of these tribes are similar, some little deviation exists in their practices. A unifying factor however remains presence of elders who exert heavy influence upon most, if not all aspect of their lives.

SUCCESS STORIES

EDUCATION

Providing Quality Teaching and Learning Materials

Access to quality education in most parts of Somalia is hindered due to lack of adequate resources such as proper infrastructure, human personnel and books. NAPAD in partnership with Norwegian Church Aid (NCA) distributed a total of 850 textbooks to 8 Schools in Dollow and Belet Hawa, Districts with the least district-level school developments in Somalia
