Our Impact 2020

SDG 2: Zero Hunger

- Over **90 hectares** farmland under solar-powered irrigation
- **420 farmers** were supported to improve food production through irrigation systems, skill transfer and provision of farm inputs.
- **120 women** supported to establish flourishing kitchen gardens in Abudwak
- Approximately 85,937 **livestock** accessed adequate and lifesaving water in Gedo and Galgadud
- **28,000 people** benefitted from humanitarian aid

SDG 4: Quality Education

- **7,177 school going children** in **22 schools** in Gedo region accessed quality basic education
- **2,048 children** from **8 schools** received learning materials
- **4520 students** benefitted from school feeding programme
- **71 teachers** received financial incentives

SDG 6 & 13: WASH and Affordable Clean Energy

- **66,420 persons** accessed with affordable safe drinking water in Gedo and Galgadud Regions in Somalia and Mandera Kenya through solarization of **5 community water sources**, construction of **4 water tanks** and establishment of **4.65-km PVC water** pipework.
- **1,230,000 persons** reached through COVID 19 prevention and hygiene promotion.
- **26 hand washing** facilities established in institutions to prevent spread of COVID 19
- **12 Solar power** community technicians trained to operate and manage the solar water pumping systems established
- **3600 persons** benefit from hygiene kits they received
- **54 latrines** constructed or rehabilitated

SDG 16: Peace, Justice and Strong Institutions

- Over **260,000 citizens** have information on where and how to access legal Aid services
- **60 Local clan and religious Leaders** have the skills to dispense justice through Alternative Justice System
- **Rhamu Legal aid Centre** is now functional

We are **Nomadic Assistance for Peace and Development (NAPAD)**

NAPAD envisions a just, peaceful and prosperous society for all

Our mission is to promote sustainable peace and human development amongst vulnerable communities through the advancement of social, economic, ecological and political justice in the Horn of Africa.

We aim at contributing to the realization of lasting peace and human development in target areas through recovery, rehabilitation and reconstruction.

Now, in our 15th years NAPAD efforts are focused on ensuring that vulnerable and poverty-stricken communities in the Horn of Africa particularly the pastoral and agro-pastoral communities have equal access to peace, quality life and sustainable development. We achieve this by supporting communities to actively participate and influence socio-economic and political development processes that address the needs of the disadvantaged. Our programmatic and operational presence has been driven by community needs and the desire to continuously improve our effectiveness.

We have now impacted the lives of more than 3 million people

Our focus areas address the needs of communities in Livelihoods and Food Security, Education, Water Sanitation and Hygiene (WASH), Community Cohesion and Reconciliation, Environmental Management and Advocacy.

Over the years we have worked in Mandera (Kenya), Jubaland, Galmudug and Banadir States of Somalia.

Our challenges are huge, but we have remained steadfast in our pursuit of our vision of just, peaceful and prosperous societies in our target areas of Kenya and Somalia.

Keeping true to our **Vision of a just, peaceful and prosperous society for all**

NAPAD's third strategic plan and provides a strategic path for the period 2019 to 2023. This path supports the objectives for which NAPAD was established which are to:

1. Reduce the impact of disasters by; building resilience through sustainable livelihood platforms.
2. Increase food accessibility and sustainable production infrastructure in drought-stricken communities.
3. Build brighter futures through peace building and education for victims of conflicts and drought.

The overall goal is to expand NAPAD's integrated community transformational model throughout the target regions in Kenya and Somalia and have a model that can be replicated in other areas with similar contexts. This will be achieved through six strategic priority areas of focus namely:

1. Improving Water Sanitation and Hygiene standards within the target communities
2. Sustainable livelihoods for riverine, pastoral and agro-pastoral communities
3. Access to quality and affordable Education
4. Governance and Peace-Building
5. Climate change adaptation and mitigation
6. NAPAD Institution strengthening

NAPAD is adapting to changing contexts affecting the Horn of Africa as with the rest of the world. Impacted by cyclic and devastating climatic events and conflict the horn of Africa is now grappling with the impact of the invasion of the desert locust and COVID 19 Pandemic on livelihoods and food security of the most vulnerable. NAPAD is grateful to see a steady increase in the number of institutional partners who have chosen to partners with us. We are now focused on broadening our donor base and raising adequate funding for the critical sectors mentioned above that serve to improve the wellbeing the most vulnerable in the communities we serve.
